

PAPER BAGS

PRODUCTS CATALOGUE

OUR BAGS ARE NOT BROWN
BUT **GREEN.**®

KRAFTPAK®

MADE FROM 100% RECYCLED MATERIALS AND 60% (PCW) POST CONSUMER WASTE

The paper composition of our KRAFTPAK bags is the result of a manufacturing process that lends itself to the marketing of a category of paper bags consisting of 100% recycled materials and a minimum of 60% post-consumer waste (PCW).

Thanks to their carbon footprint, which is more than 65% less than others virgin materials, our KRAFTPAK Natural bags will help you reduce your environmental impact.

THE SMART ENVIRONMENTAL CHOICE

FDA compliant for direct food contact and FSC certified, our KRAFTPAK Natural bags will propel your packaging solutions to the forefront of sustainable food packaging, accelerating the disposal of single-use plastics and helping you achieve your ambitious waste reduction goals. The additives in our KRAFTPAK bags, such as inks and adhesives, are composed of natural pigments, corn starch particles, biodegradable ingredients and water.

They remain the best solution for environmental food packaging by being recyclable, compostable and biodegradable.

Sustainable development

PROMOTE THE DEVELOPMENT OF RECYCLED, RECYCLABLE AND BIODEGRADABLE PRODUCTS.

By eliminating single-use plastics, our products accelerate the transition to healthy packaging alternatives, helping you reach your sustainability goals faster.
